

Outsourced Logistics, Sales Support and Office Services for the Furnishings Industry

Global OnDemand

ANOTHER GLOBAL FURNISHINGS INDUSTRY SOLUTION FROM AMPAC.

Global OnDemand

An instant US office and operations center supporting your business plan.

As industry insiders for over 25 years in the center of the furnishings industry, the mission of our GO Global OnDemand program is to fulfill inventory and freight management as a specialized, holistic Distribution Center, uniquely providing a year-round personalized call center and office to support your marketing, sales, administrative, and supply chain strategies.

How goods reach the end user in the US furnishings industry can be organized in many ways—by Manufacturer, Wholesale Distributor, or Retailer—but each role must be filled.

Today, distribution paths have become more complex and diverse than ever before, with technology as a leading catalyst redefining the sell through and supply chain, and rapid change the only certainty.

Outsourcing necessary tasks and services that require high investment or skill sets

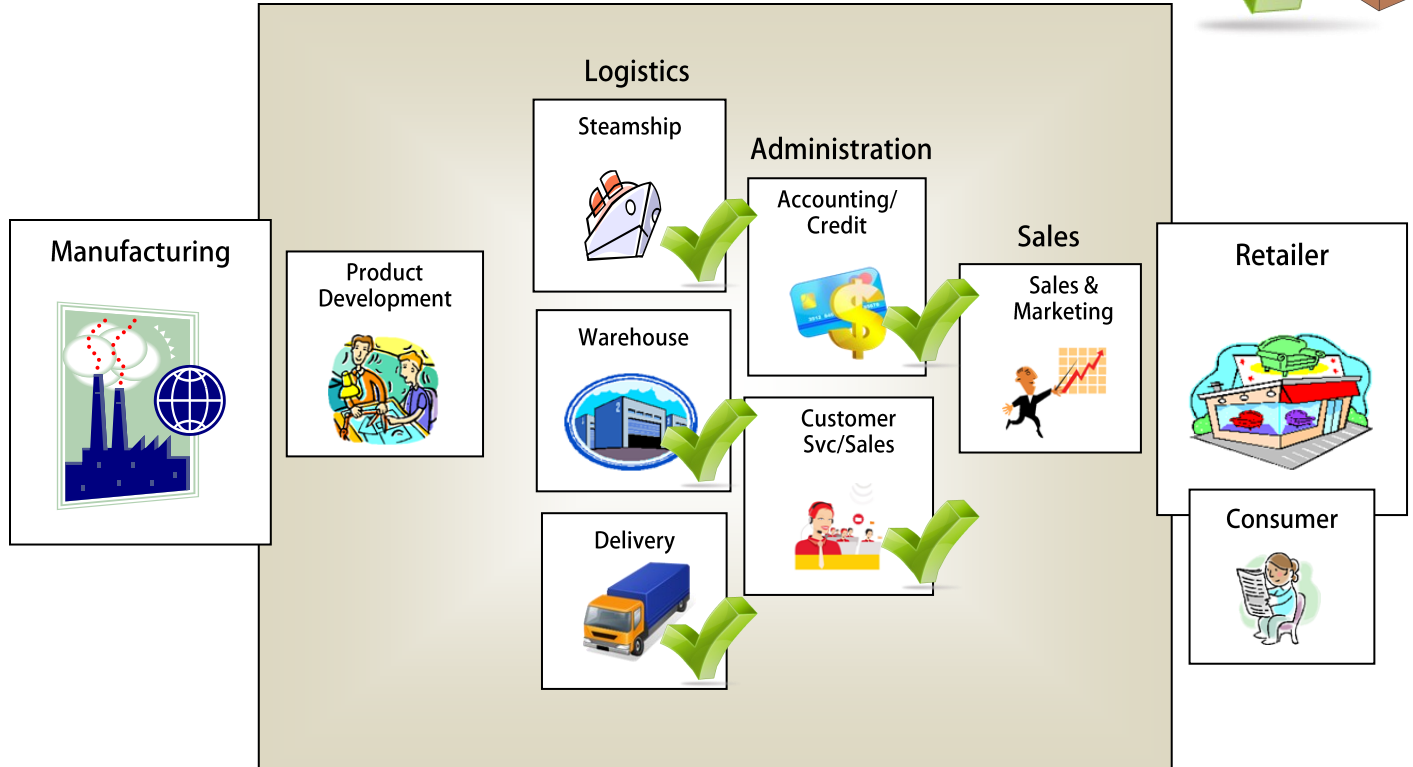

that are not specific to your core business is a proven method to reduce risk, isolate and resolve challenges, lower costs, and stay on track with trends.

Ampac Forwarding works with Manufacturers, Distributors, and Retailers, fulfilling a wide variety of Logistics, Administrative, and Sales Support functions.

We are uniquely situated and qualified to lighten your load.

Distribution Infrastructure

Global=visionary + OnDemand

Global OnDemand is ideally suited for international companies starting or growing their share in the US market, for Ecommerce companies needing rapid fulfillment and in-home delivery of both small and large home goods, or for any company which would benefit from outsourcing bricks and mortar services in order to leverage mobile and global strengths. GO, Global OnDemand has the features to empower your vision.

- An operations and freight management facility and team of professionals with insider expertise—
 - Warehouse space and staff that flex up or down seamlessly with your business patterns, storage, and handling needs.
 - Shipping that includes specialized furniture carriers, UPS, USPS, LTL carriers, in-home and blanket wrap service, domestic and international air freight, international consolidation and ocean freight.
 - Packing, wood framing and crating.
 - Inventory management including online tracking, and E-Cat compatibility.
 - Flexible order fulfillment programs engineered for quick ship and inventory on demand programs, as simple as sending a fax or email, or sophisticated as Electronic Data Integration.
 - Order fulfillment for diverse products: casegoods, upholstery, accessories, lighting, giftware, mixed use, small and large items.
 - Systems and tracking for diverse business models: Wholesale, Retail, Ecommerce.
 - Labor and services to support showrooms, exhibitions, and other special events.
 - Repair, detailing.
 - Light assembly, COM and custom finish resources.
 - Quality assurance.
- An in-house international department to address both import and export traffic, and an active ongoing partnership in developing logistics solutions, keeping an eye on trends to help you keep your competitive edge.
- A US Branch or Corporate Office with functions supplied as needed, by industry insiders—
 - A Customer Service Call Center, trained Sales Support.

- Access to additional resources
 - Marketing professionals
 - Sales recruitment
 - Social and print media management
 - Product development professionals
 - Interior Designers
 - Contractors
 - Other suppliers

and=what you need when you need it

Ampac Forwarding is a warehousing, packing and shipping company specializing in the quality care of home furnishings and special commodities. Located in High Point, North Carolina since 1989, our company has grown on a foundation of personalized, quality service to our domestic and foreign customers. Ampac's highly experienced staff is trained to be attentive to our customers' specific individual needs.

We have the facilities and resources to provide a "turnkey" distribution network from the time we pick up or receive your goods to the safe and timely delivery at final destination. Along with our storage and shipping capabilities, we specialize in the professional packaging of your product for onward transport. This is particularly valuable to our overseas customers who ship containers of goods packed in export wrap only, as well as our showroom clients who require the packaging of their "off the floor" products and furniture samples prior to shipping.

Whether your needs require one or all of the services we offer, the professional team at Ampac Forwarding welcomes the opportunity to serve you.

Our Services...Anytime

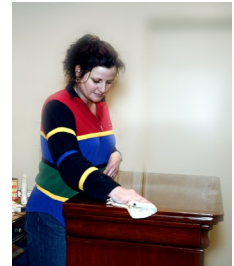

Packaging and Shipping: If your product needs packing prior to shipping, we have the expertise and experience to do it right. No matter how fragile, large, or time sensitive, our packaging and crating experts can pack and ship your important shipments for safe delivery to the final destination.

Import/Export Distribution: We can be your U.S. warehouse for receiving or loading overseas containers. Our services include being a single source for distribution to any point in the U.S.A. or overseas.

Furniture Detailing, Repair and Assembly: When quality control prior to the final shipping process is requested, Ampac can inspect, deluxe, repair, or assemble furniture to assure that your product is in top quality condition when it reaches your customer.

Warehouse Storage: Whether your needs require short term or long term storage, Ampac provides modern, climate controlled, security alarmed, video surveillance facilities for your safe storage.

Pickup and Delivery Service: Our trucks and experienced movers are available for commercial, residential, and showroom pickups or deliveries upon request.

Packaging Supplies: We carry a full line of packaging supplies that are available for customer pick up or delivery.
